LinkedIn: linkedin.com/in/ferenc-megyesi | Live Portfolio (Blazor): meferihun.github.io/portfolio

I am a recently graduated (2026) software developer from the University of Szeged, combining my academic studies with a year of real-world, large-scale enterprise project experience. I am seeking a junior position where I can support an innovative development team using modern technologies and striving for stable code quality.

TECHNICAL SKILLS

- **Main Technologies:** C# (.NET, ASP.NET, Blazor WebAssembly, EF Core)
- **Frontend & Web:** JavaScript, HTML, CSS
- **Additional Languages:** Java (Spring), Python (OpenCV)
- **Tools & Methodologies:** Git, Agile (Scrum), Unit and Integration Testing, Clean Code

PROFESSIONAL EXPERIENCE

Software Developer Intern (Full Stack) | evosoft Hungary Kft. | June 2025 - *Present*

- Working as part of a 12-person cross-functional Scrum team (developers, testers, PO, architect) on an enterprise-level web application using C#/.NET and Blazor WebAssembly technologies.
- Participating daily in Agile ceremonies (Daily, Planning, Sprint Review) and collaborating on a shared codebase using Git (Pull Requests).
- Writing Unit and Integration tests for the business logic and UI elements I develop, alongside gaining insight into the structure of System Integration tests.
- Mastering "Clean Code" principles and stable software architecture by continuously incorporating Code Review feedback received from senior developers.

PROFESSIONAL PROJECTS (GITHUB)

- **News Aggregator (Java Spring):** Developing the backend of a web application with MVC architecture and REST API endpoints.
- **Advent of Code (C#):** Solving complex algorithmic challenges, focusing on data structures and OOP principles.
- **Snake Game (C# & WinForms):** Event-driven desktop application with stable business logic and UI handling.
- **Roblox Automation (Python):** Writing scripts for automated events and data processing.

EDUCATION

BSc in Computer Science | University of Szeged | 2021 - June 2026

- *Key Courses:* Application Development in C#, Agile Software Development, System Development (Java Spring), Digital Image Processing.
